

PREMIUM PARTNER IN ALUMINIUM SOLUTIONS

... more than just extrusions

...more than just extrusions,
one source for the total chain

OUR SERVICE CONCEPT

We offer you flexible service with a dedicated team and the same contacts for your entire project. We support you from the first design to the implementation stage. Additionally we offer **recycling services** for your aluminium products.

Our service concept is based on a long-term partnership, sustainable practises and our commitment to quality.

PLANNING

choice of most efficient fabrication methods

DESIGNING

optimization of extrusions and machining

IMPLEMENTATION

ramp-up of process and logistics, starting with sampling series

QUALITY

We are committed to produce high-quality products and services. We provide you with individual sampling, process capability control and variety of certificates.

SUSTAINABILITY

Sustainability is at the very heart of everything we do. Our goal is to continuously reduce our carbon footprint. We offer our customers **CO² footprint** calculations, the option to use recycled Greenline raw material and help with life cycle services for your product.

RAW MATERIAL

- More than 50% of material used comes from our own Remelting Plant in Ikaalinen
- GreenLine certified recycled material upon request

EXTRUSION

- Profile extrusion on 25-35 MN lines at Purso, Siuro & 25-55 MN lines at Nedal, Utrecht

SURFACE TREATMENT

- Powder coating & anodizing up to 8m in-house
- Piece anodizing and >8m profiles through our wide network

BENDING

- Long experience in 2D & 3D bending

MACHINING & LASER CUTTING

- Machining centers up to 15m & 5 axis
- Extensive in-house capabilities and a wide subcontractor network

CUTTING

- Cost-efficient cutting and deburring possibilities

PUNCHING

- Customizable, efficient punching options

WELDING

- TIG, MIG, FSW (friction stir welding)

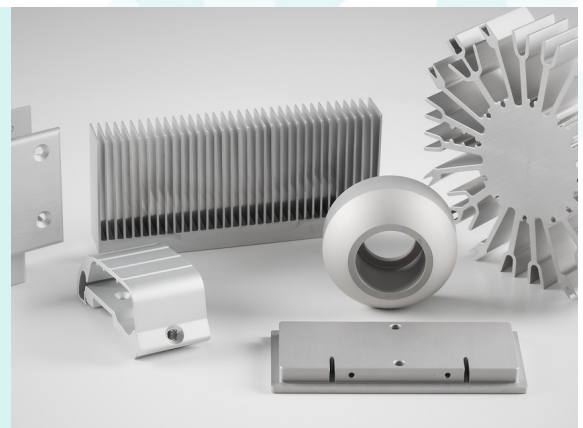

STOCKING

- Flexible delivery solutions based on stocking agreements for finished products

ASSEMBLY AND PACKING SERVICES

- Assemblies
- Semi-part assemblies
- Distribution-ready packaging and labelling

Purso is a Finnish family business,
founded in 1959, with headquarters in
Siuro, Finland.

The Purso Group consists of Purso Oy
(Siuro), Nedal Aluminium B.V. (Utrecht)
& Purso AluCool Oy (Tervajoki).

Learn more about what we do and
check out our profile design manual.
